Minutes of the 2019 Annual Meeting

The 2019 Annual Meeting of the Association of Professional Engineers of the Province of Prince Edward Island was held at the Rodd Charlottetown Hotel in Charlottetown, PEI, on Friday, November 29, 2019. There were 111 members and guests in attendance.

Special Guests from Out of Province:

Andre Veinotte, P.Eng., President, Engineers Nova Scotia
Len White, CGC, CPA, P.Eng., CEO/Registrar, Engineers Nova Scotia
Chris Zinck, FEC, P.Eng., Engineers Canada Director, Engineers Nova Scotia
Serge Dupuis, P.Eng., President, APEGNB
Lia Daborn, CEO/Registrar, APEGNB
Nancy Hill, P.Eng., LLB, FEC, President, PEO
Johnny Zuccon, P.Eng., CEO/Registrar, PEO
David Lynch, FEC, P.Eng., President, Engineers Canada

2018-2019 Council:

Geoff Connolly, Q.C., P.Eng. President
Wendy Weeks, P.Eng., Vice President
Joshua Collins, P.Eng., Past President
Heather MacLeod, FEC, P.Eng., Councillor
Elliott Coles, P.Eng., Councillor
Aitazaz Farooque, P.Eng., Councillor
Colin McQuillan, P.Eng., Councillor
Justin Dunn, FEC, P.Eng., Engineers Canada Director
Nicholas Krouglicof, FEC, P.Eng., UPEI FSDE Liaison
Jim Landrigan, P.Eng., Executive Director

Members and EITs:

Blair Arsenault, P.Eng.	Mike Arthurs, P.Eng.	Nick Ballem, P.Eng.
Jon Barrett, P.Eng.	Jake Bartlett, FEC, P.Eng.	Logan Blanchard, EIT
Garry Bowley, P.Eng.	Mark Bowness, P.Eng.	Daniel Breau, P.Eng.
Claus Brodersen, P.Eng.	Jill Burrige, EIT	Allan Campbell, P.Eng.
Darcy Campbell, P.Eng.	Darren Chaisson, P.Eng.	Ed Charter, P.Eng.
Nancy Chiasson, P.Eng.	Matt Collins, FEC, P.Eng.	Bill Courtney, FEC, P.Eng.
Ryan Crane, P.Eng.	Alex Dalziel, EIT	Wade Enman, P.Eng.
Darrell Evans, P.Eng.	Richard Farmer, FEC, P.Eng.	Fahad Farooqi, EIT
Zumer Fatima, EIT	Matthew Fortier, P.Eng.	Tyler Gallant, EIT
Corinne Gardham, P.Eng.	Lokesh Garg, P.Eng.	Alexander George, P.Eng.
Don Gillis, FEC, P.Eng.	Paul Godfrey, P.Eng.	Philip Gotell, P.Eng.
Cameron Graham, P.Eng.	Stephanie Griffin, P.Eng.	Ian Harper, P.Eng.
Spencer Hay, EIT	Carrie Houston, P.Eng.	Amber Jadis, P.Eng.
Ron Keefe, P.Eng.	Nick Krouglicof, FEC, P.Eng.	Ben Lanigan, EIT
Neil Lawless, P.Eng.	Marianne LeBlanc, P.Eng.	Adam Lidstone, EIT
Graeme Linkletter, FEC, P.Eng.	Carter Livingstone, EIT	Spencer Long, P.Eng.
Aaron MacDonald, P.Eng.	Charles MacDonald, P.Eng.	Greg MacDonald, P.Eng.
Don MacEwen, FEC, P.Eng.	Jody MacLeod, P.Eng.	Kent MacLeod, P.Eng.
Wayne MacQuarrie, FEC, P.Eng.	Doug Matheson, P.Eng.	Kaaren May, P.Eng.
Don McGinn, P.Eng.	Janeen McGuigan, EIT	Mancy McKenna, P.Eng.
Matthew McKenna, EIT	Mike McKenna, FEC, P.Eng.	Terry McKenna, P.Eng.
Larry McQuaid, P.Eng.	Vernon McQuillan, FEC, P.Eng.	Alex Montgomery, EIT
Gérald Morneau, P.Eng.	Donnie Morrison, P.Eng.	Majid Morshedizadeh, P.Eng.
Brett Murphy, EIT	AFM Mursalin, P.Eng.	Kent Nicholson, P.Eng.
Gary O'Rielly, P.Eng.	Art Ortenburger, EIT	Frank Parslow, FEC, P.Eng.
Tanya Pater, EIT	Ed Power, FEC, P.Eng.	Nick Reddin, P.Eng.
Alisa Saciragic-Mrehic, FEC, P.Eng.	Zachary Sencabaugh, P.Eng.	Ashley Smith, EIT
Zach Stephens, P.Eng.	Tobin Stetson, P.Eng.	Gerry Stewart, P.Eng.
Wayne Tremblay, P.Eng.	Luc Van Hul, FEC, P.Eng.	Andrew Walsh, EIT
Sean Wheeler, FEC, P.Eng.	Doug Wright, P.Eng.	Tyler Wright, P.Eng.
Jack Yan, P.Eng.	Bob Younker, P.Eng.	Svilen Zlatev, P.Eng.

1.0 Call to Order and Welcome

President Geoff Connolly, Q.C., called the meeting to order at 9:30 am pm by welcoming everyone to the 2019 Annual General Meeting. He introduced the Council members and extended a warm welcome to the guests from other engineering associations.

There was a moment of silence for the four Engineers PEI members who passed away this year: Robert Donnelly, FEC, P.Eng., James Feltham, P.Eng., Tony Glencross, FEC, P.Eng. and Harry Yeo, P.Eng.

Geoff acknowledged the sponsors of the Annual Meeting and thanked them for making the AGM events possible: TD Meloche Monnex, The Great West Life Assurance Company, Manulife Financial, Dr. Amy Hsiao, P.Eng., Dr. Nicholas Krouglicof, FEC, P.Eng., Harbourside Engineering Consultants, WSP Canada Inc., MCA Consultants Inc., CBCL and Linkletter Engineering Inc.

1.1 Changes to the Agenda

Geoff noted that since the Agenda is set out in the By-Laws, no formal approval of the Agenda is required. There were no additions from the floor.

2.0 Minutes of the 2018 Annual Meeting:

Geoff asked if there were any errors in or omissions from the minutes of the 2018 Annual Meeting. No errors or omissions were noted. He called for the approval of the minutes.

It was moved by Sean Wheeler, FEC, P.Eng., and seconded by Lokesh Garg, P.Eng., that the minutes be approved as presented. Motion carried.

3.0 Business Arising from Minutes

There was no business arising from the minutes.

Vice President Wendy Weeks, P.Eng., took over as chair while President Geoff Connolly, Q.C., P.Eng., presented his report.

4.0 President's Report

President Geoff Connolly, Q.C., P.Eng., noted that it was an honor to serve as Engineers PEI President over the past year.

Geoff reported that he enjoyed his year as President of Engineers PEI. He noted that the primary function of Engineers PEI is protection of the public. He noted that Council spent a lot of time focusing on that. He noted that this is a national issue, not just local. Geoff reported that this is done through regulation of the profession by ensuring that only competent and qualified individuals engage in the practice of engineering.

Geoff noted that last week's MLA Reception was well attended. He noted that the primary reason for our yearly MLA Reception is to keep the government up to date on issues that are of importance with respect to protecting public interest.

He reported that we continue to advocate and work to increase the representation of women within the engineering profession. He noted that the Engineers Canada "30 by 30 Initiative" is a top priority of engineering associations across Canada.

Geoff noted that, as Chair of the Advocacy Committee, he was actively involved in the continued work on having an ultimate limitation period enacted through an amendment to the Engineering Profession Act. He noted that he had hoped it would be on the Fall 2019 sitting of the Legislature, but it has been pushed back to 2020.

Geoff reported that he attended numerous events on behalf of Engineers PEI, including the Ritual of the Calling of the Engineer at UPEI's Faculty of Sustainable Design Engineering.

In closing, Geoff thanked Jim and Kim for their hard work over the past year.

It was moved by Wayne MacQuarrie, FEC, P.Eng that the President's report be received. Report received.

President Geoff Connolly, Q.C., P.Eng., resumed chairing the meeting.

5.0 Executive Director's Report

Executive Director Jim Landrigan, P.Eng., reported that it has been a very busy year for Engineers PEI.

Jim reported that Engineers PEI was the first association to join the national Competency Based Assessment Program with EGBC. He noted that the project team is looking into an alternative option for applicants with respect to the minimum one year of Canada environment experience requirement. Jim noted that one option may be the Working in Canada Seminar.

Jim noted that he became Chair of the Engineers Canada CEO Group last year. He noted that the topics discussed included the 2022-2024 Strategic Plan, Environmental Scan, Diversity and Inclusion in the profession, and international mobility.

He reported that the validation of 45 applicants was completed by World Education Services (WES). He noted that this is a 50% increase over the previous year. Jim noted that this continues to improve our efficiency and has enabled us to complete their academic review.

Jim reported that public perception and trust in the profession is very important. He noted that the association and members play an important role in keeping the public safe. He noted that this is a responsibility and privilege that we share.

Jim thanked Kim, President Geoff Connolly, Council and volunteers for their support during the past year. He thanked Joanne for her continued assistance with outreach and social events.

It was moved by Larry McQuaid, P.Eng., that the Executive Director's Report be received. Report received.

6.0 Registrar's Report

Executive Director Jim Landrigan, P.Eng., referred to his written Registrar's Report. He reported that there was an 11% increase in Licence to Practise applications over the past year. He noted that 14% of newly licensed engineers this year were women. He noted that three foreign trained engineers received their P.Eng. designation.

It was moved by Don Gillis, FEC, P.Eng., that the Registrar's Report be received. Report received.

7.0 Treasurer's Report

The audited financial statements dated October 31, 2019 were presented by Treasurer Jim Landrigan, P.Eng.

Jim reported that we had a net income of \$50,000 at the end of the fiscal year. He noted that this is mostly due to an increase in EIT and LTP applications.

Jim noted that expenses were less than forecasted. He noted that travel expenses were down, largely due to Jim being Chair of the CEO Group. He noted that Engineers Canada covers the cost of travel for the Chair.

He reported that Council approved a motion to put \$30,000 in the legal reserve.

It was moved by Ed Charter, P.Eng., that the Treasurer's Report be received. Report received.

8.0 Engineers Canada Director's Report

Engineers Canada Director Justin Dunn, FEC, P.Eng. noted that his detailed report can be found in the Annual Report.

Justin noted that Engineers Canada has begun the process for the development of the next strategic plan. He noted that, after undertaking an environmental scan of the engineering profession and Engineers Canada's work, they have been doing analyses with Engineers Canada staff, the CEAB and CEQB, the CEO Group and NCDEAS.

In January of this year, the operational agreements of the associations who have committed to using the CBA tool were finalized and signed by all users. He noted that various tool capabilities were added throughout the year, including the ability to administer their own users in mid-2019, and a registration and authentication system that recognizes a user's jurisdiction was also added.

Justin noted that, in February of this year, Engineers Canada was notified that APEGA was withdrawing from the TD home and auto insurance affinity program. While there was no immediate impact to Engineers Canada's budget, they will be assessing the longer-term effect on revenue as they move forward. He noted that the Finance, Audit and Risk (FAR) Committee presented on this topic at the October Board meeting.

Justin reported that many of the provincial associations joined the Engineers Canada effort to reach 30 by 30 by forwarding Champions. He noted that, under the current strategic plan, the 30 by 30 work falls under the umbrella of Strategic Priority 3, which is "recruitment, retention, and professional development of women in engineering".

It was moved by Doug Matheson, P.Eng., that the Engineers Canada Director's Report be received. Report received.

9.0 Committee Reports

Geoff noted that, since most of the committee reports are standing, only a few of the committee chairs need to present their reports. He noted that all annual reports can be found in the Annual Report document.

9.1 Act Enforcement

Allan Campbell, P.Eng. reported on behalf of Chair, Kerry Taylor, FEC, P.Eng..

Allan reported that the committee received twenty-one complaints over the past year. He noted that seventeen complaints are ongoing and require legal advice.

He noted that one complaint is awaiting a response. He noted that three complaints have been completed.

Allan was asked about the nature of the complaints. He reported that two complaints were with respect to companies using the term "engineering" in their signage. He noted that one complaint was against an engineer.

Allan noted that the number of complaints is considerably higher than previous years.

Geoff noted that Council was made aware of the numerous complaints from one individual at the November Council meeting.

Don McGinn asked if providing the name of the complainant to the complainees may hinder someone from making a complaint. Allan noted that the process is outlined in our Act and Bylaws. He noted that, as the Act is currently written, the Act Enforcement Committee's hands are tied with respect to confidentiality. He noted that there is a procedure that must be followed.

9.2 Act Review Committee

Justin noted that the committee has been hard at work over the past year.

He noted that the committee has been working closely with engineering associations across Canada, as well as with Engineers Canada, to adopt the current best practices and to understand how other associations have addressed current issues.

Justin noted that some of the key changes include, but are not limited to: alignment with the incoming province wide adoption of the National Building Code, alignment of best practices within the Canadian engineering community, ability to impose an administrative monetary penalty for those in violation of the Act, and the ability to add classifications of membership categories based upon engineering disciplines and necessary qualifications.

In closing, Justin thanked the committee for their hard work and dedication over the past year.

9.3 Advocacy Committee

It was noted that the committee report can be found in the annual report document.

9.4 Annual General Meeting Committee

It was noted that the report can be found in the annual report document.

9.5 Social Committee

It was noted that the report can be found in the annual report document.

9.6 Awards Committee

It was noted that the report can be found in the annual report document.

9.7 Student Outreach Committee

It was noted that the report can be found in the annual report document.

9.8 Construction & Consulting Committee

It was noted that the report can be found in the annual report document.

9.9 EIT Committee and Experience Review Board

It was noted that the report can be found in the annual report document.

9.10 Engineering Qualifications Committee

Heather MacLeod, FEC, P.Eng., reported on behalf of Chair Nazmi Lawen, FEC, P.Eng.

Heather noted that the committee has reviewed a number of applications for registration from EITs and others. She noted that the committee reviewed 45 applications from foreign trained applicants.

She reported that the review process is currently based on the Competency Assessment Program. She noted that this framework comprises the required proficiencies to enter the engineering profession and provides clear guidance on the path to registration for applicants.

Heather thanked the committee members for their contributions over the past year.

9.11 Environment Committee

It was noted that the report can be found in the annual report document.

9.12 Nominating Committee

It was noted that the report can be found in the annual report document.

9.13 Professional Development & Continuing Education Committee

It was noted that the report can be found in the annual report document.

9.14 Women in Engineering Committee

Committee member Wendy Weeks, P.Eng., reported on behalf of Chair Amy Hsiao, P.Eng.

Wendy noted that the committee has held a number of events over the past year for networking, mentorship and professional development.

She reported that a “Lean In Wine and Cheese” event was held on November 19th at the Engineers PEI office. Wendy noted that the committee organized a WIE Networking Lunch on February 20th featuring a talk on “Leadership Communication Styles for Women”.

Wendy noted that the committee hosted a lunch for eight girls from grades 11 and 12 who were participating in UPEI FSDE’s ProGRES. She noted that there was a nice mix of ProGRES alumna, ProGRES students and members.

She reported that the committee, through Engineers PEI, sponsored and participated in the ACT Conference held in May at UPEI FSDE. She noted that Amy was the chair of the conference and moderator of the panel “Retention of Women in SETT”. She noted that Christine MacKinnon served on the organizing committee and was moderator for the panel on “Strategies for Hiring Women”.

In closing, Wendy noted that the committee welcomes the participation of all members and will continue to have networking lunches and other social events to support the effective recruitment of women to engineering.

It was moved by Wayne MacQuarrie, FEC, P.Eng. that the Committee Reports be received. Reports received.

10.0 Ratification of Actions of Council

It was moved by Majid Morshedizadeh, P.Eng., and seconded by Graeme Linkletter, FEC, P.Eng., that the annual meeting ratify the actions of Council during the past year. Motion carried.

11.0 Scrutineers Report

Executive Director Jim Landrigan, P.Eng. handed the sealed envelope containing the Scrutineer’s Report to President Geoff Connolly, Q.C., P.Eng., who read the results of the election vote. One hundred and fifty-seven ballots were cast, which was 49% of eligible voters. There were no spoiled ballots.

The results were as follows:

President:	Wendy Weeks, P.Eng.
Vice President:	Elliott Coles, P.Eng.
Councillor:	Mark Sherren, P.Eng.
Councillor:	Heather MacLeod, FEC, P.Eng.
Councillor:	Colin McQuillan, P.Eng.
Councillor:	Aitazaz Farooque, P.Eng.

12.0 Disposal of Scrutineers Report

It was moved by Alisa Saciragic-Mrehic, FEC, P.Eng., and seconded by Garry Bowley, P.Eng., that the report be destroyed. Motion carried.

13.0 Installation of New Officers

Geoff Connolly, Q.C., P.Eng., noted that new Councillor Mark Sherren P.Eng. was unable to attend the meeting this morning.

13.1 Incoming President's Remarks

Incoming President Wendy Weeks, P.Eng., welcomed and thanked those in attendance.

Wendy noted that Engineers PEI is largely volunteers with two amazing staff, Jim Landrigan and Kim Levesque. She noted that events such as the AGM would not be possible without Jim and Kim.

Wendy thanked Geoff Connolly for his hours of dedications to advancing the association over the past year. She noted that he has been instrumental in making changes to our Act with respect to limited liability.

She noted that increasing the diversity and inclusivity of the engineering profession is a key goal of Council and it will be a priority over the next year. She noted that Amy Hsiao, FEC, P.Eng., Glenda MacKinnon-Peters, FEC, P.Eng., and Jim Landrigan, P.Eng. have been key players in our 30 by 30 initiative. She noted that Amy is leading ProGRES and GoEngGirl programs to expose young girls to engineering as a possible career. She noted that Amber Jadis, P.Eng. is doing an amazing job of engaging youth with her Bricks for Kids program, bringing science, engineering, math and technology education using Lego.

In closing, Wendy noted that the best promotion of the engineering profession and the best defence against becoming an unwanted front page story is to strive to do our best and going the extra kilometre. She noted that, to ensure a bright future for the profession, and to attract new talent, engineers must be proud of their work and be willing to share our knowledge with others.

14.0 Election of the 2019-2020 Nominating Committee

A call was made for two members to join the Past President in forming the 2019-2020 Nominating Committee.

It was moved by Darrell Evans, P.Eng. and seconded by Blair Arsenault, P.Eng. that Neil Lawless, P.Eng. and Bill Courtney, FEC, P.Eng., be approved as members of the 2019 -2020 Nominating Committee. Motion carried.

15.0 Proposed Budget for 2019 – 2020

Incoming President Wendy Weeks, P.Eng. presented the proposed budget for 2019-2020.

Member Don McGinn noted that wages and benefits have increased by just 2%. He noted that our employees need to be valued. He asked if we need to configure/change staff. He noted that he served on Council and that the workload is ever increasing for the Executive Director and Administrative Assistant. He asked if Jim and Kim need more support and/or compensation.

Geoff noted that Council is very responsive to any requests that are made. He noted that the salary ranges are reasonable and annual increases are based on what the provincial government and other organizations offer.

It was moved by Wayne MacQuarrie, FEC, P.Eng. and seconded by Garry Bowley, P.Eng. that the proposed budget be approved. Motion carried.

16.0 Appointment of Auditor

It was moved by Larry McQuaid, P.Eng., and seconded by Jody MacLeod, P.Eng., that Carl Herring, C.A. be appointed as the Association's auditor for the upcoming year. Motion carried.

17.0 New Business

No new business was introduced.

18.0 Closing

There being no further business, President Geoff Connolly, Q.C., P.Eng. announced the closing of the meeting at 11:45 am.

19.0 Greetings from Out-of-Province Guests:

At various times throughout the meeting, President Geoff Connolly, Q.C, P.Eng., invited the Presidents of the Associations, or their representatives, to offer a few words of greetings.

19.1 Greetings from APEGNB

President Serge Dupuis, P.Eng. brought greetings on behalf of the members of APEGNB.

Serge thanked Geoff for the invitation to attend the AGM. He noted that it was a pleasure to bring greetings as the 100th President of APEGNB. He noted that it has been a very busy year with significant changes within the association. He noted that the long-standing CEO, Andrew McLeod retired and Lia Daborn was hired as the new CEO.

Serge noted that, like many other sister associations, APEGNB is entering its 100th year of operation. He noted this is quite an accomplishment. While there have been challenges with self-regulation, we have a strong history. With new technology and processes, we are seeing impacts that directly affect our profession and regulation. It is for this reason that we must remain vigilant to ensure that we are all act in accordance with public safety.

He noted that APEGNB launched its Member Portal, which is a single source of information for their members, giving them a chance to not only take ownership of their personal information that is on file, but it also empowers them to proactively manage their professional development hours.

Serge noted that APEGNB introduced a new continuing professional development program. He noted that the most significant piece of this program comes from the ability for members to record their PD hours in the Members Portal.

Serge thanked Engineers PEI for their hard work and contributions over the past year.

19.2 Greetings from Engineers Nova Scotia

President Andre Veinotte, P.Eng. brought greetings on behalf of Engineers Nova Scotia.

He noted that this is his first AGM as President of Engineers Nova Scotia. He noted that Engineers Nova Scotia has a very strong relationship with Engineers PEI. He noted that Engineers Nova Scotia was happy to have Jim as Chair of the CEO Group. He noted that, while Jim represents Engineers PEI, he has also been a strong voice for Engineers Nova Scotia.

Andre noted that Engineers Nova Scotia is going through a time of change, with the retirement of CEO Len White, FEC, P.Eng. He noted that they are currently looking for a new CEO. He noted it will be hard to replace such a strong leader.

In closing, he thanked Geoff, Joshua and Justin for their contributions at the national level and wished the incoming President luck in the coming year.

19.3 Greetings from PEO

President Nancy Hill, P.Eng., LLB, FEC, brought greetings on behalf of Professional Engineers Ontario.

Nancy thanked Council for the invitation to the AGM. She noted that she is the 100th President of PEO. She noted that she is the 7th female President of PEO.

She noted that PEO hired a new CEO/Registrar, Johnny Zuccon, P.Eng. She noted he has a 24 year history of PEO, including being part of the senior management team.

Nancy noted that, in September, PEO Council approved an action plan to address the recommendations from an external regulatory performance review. It was conducted at the request of Council to identify any gaps between PEO's current practices and the processes, procedures and policies exhibited by the regulators. She noted that the resulting report was released in April and contained fifteen recommendations in areas related to licensing and registration, complaints, and professional standards.

She reported that the PEO action plan is the first step towards transforming and achieving the vision that PEO becomes a professional, modern regulator that delivers on its statutory mandate and is supported by a governance culture that consistently makes decisions that serve and protect the public interests.

19.4 Greetings from Engineers Canada

President David Lynch, FEC, P.Eng., thanked Geoff and Council for the invitation and the opportunity to provide a few comments today.

David noted that the purpose of Engineers Canada is to serve the collective interests of the twelve engineering regulators across Canada, while upholding the integrity of the engineering profession.

He noted that this is a special year that we should all celebrate as many regulators are celebrating 100 years. He noted this is a year to recognize that, one hundred years ago, very far-sighted individuals came together and developed a model engineering act for the country. He noted that this is an opportunity for us all to take a lot of pride in what we are all a part of and what has preceded us.

He noted that this was not done by creating a large bureaucracy, but was developed by a group of volunteers.

In closing, David noted that we are only as strong as our volunteers and thanked those who have served on Council.

19.5 Update from ACEC-PEI

Christy Cunningham, Executive Director of ACEC-PEI thanked Council for the opportunity to provide an update.

She noted that ACEC-PEI is a business association which focuses on advocacy and creating a better business environment for their members.

She noted that 2019 was a year of growth for ACEC-PEI, as it had been run entirely by volunteers in the past. She noted that a successful infrastructure panel was held in October, with all levels of government represented. She noted many clients and industry professionals were present.

Christy noted that one of the first tasks completed in 2019 was a member survey. One of the questions asked was about what the most pressing issues and challenges members see in the next five years. She noted that some of the answers included recruitment of staff, low fees and the way engineering services are prepared.

Wendy Weeks, P.Eng.
President

President's Report

It has been a great pleasure to work on our members' behalf as President of Engineers PEI during 2020 even during a worldwide Pandemic. As I expressed last year at the Annual General Meeting where I accepted the Presidency for 2020, as a regulator, Engineers PEI's main obligation is to protect the public's interest. One of the primary ways in which this is done is through regulation of our profession by ensuring only competent and qualified individuals engage in the practice of Engineering. To this end, we had 33 Engineers-in-Training, 14 new Members admitted to Engineers PEI, and 23 Certificates of Authorization issued during 2020.

Engineers PEI has transitioned from the "Log Book" model to the computer based competency evaluation of demonstrated practical experience. To date, the association has received very positive feedback from candidates who have used the program. We continue to offer both tracks but will look at phasing the Logbook method out in the future for new applicants.

In recent years Engineers PEI, together with fellow regulators and Engineers Canada, have been advocating and working to increase representation of women within the engineering profession. This objective continued through the 2020 year with ongoing work on the "30 by 30 Initiative", Go Code Girl Initiative, Girls Get Wise, and work on WinSET. Chair of the Women in Engineering Committee have hosted virtual networking sessions "Lean In: Unconscious Bias" series and are promoting [CCWESTT2020](#). As well, the participants of the ProGRES (Promoting Girls in Research in Engineering and Sustainability) program run by Amy Hsaio at UPEI attended last year's AGM and impressed our members by presenting their high level research projects with confidence and intelligence. We have been very happy to create scholarships for these participants, who attend UPEI FSDE, to encourage them to go on to take Engineering as a profession.

We were pleased to see the adoption of the National Building Code in Prince Edward Island on March 31, 2020. Nazmi Lawen, FEC, P.Eng, represents

Engineers PEI on the Building Standards Council.

Another aspect of the regulatory function is complaints and discipline. A report from the Committee has been filed, and you will note that this year has been relatively busy in terms of complaints compared to some past years.

In March of 2020, we presented the Lieutenant Governor's Award for Engineering Achievement to the Charlottetown Airport Authority and our own Jason Lindsay for their runway development project. The event was hosted by the Lieutenant Governor at her residence at Fanningbank.

Engineers PEI continued its work with Engineers Canada over the past year. I attended Engineers Canada annual meetings in September 2019 as incoming President and virtually in October of this year as well as participating in Strategic Planning session in October as well. They have renewed their commitment to promoting the Profession by continuing to support Future City and 30 x 30 and Inclusion and Diversity which includes new strategies to promote engineering as a profession in the Indigenous community. In addition, we collaborated with Engineers Canada on competency-based assessment and assessing foreign engineers' qualifications.

All of our committees through Engineers PEI were less active in person this year due to COVID restraints, but still found a way to meet virtually and provide Professional Development sessions, as can be seen by the reports which accompany today's report. The Advocacy Committee's continued work on having an ultimate limitation period, enacted through an amendment to the *Engineering Profession Act*.

The Act Review Committee, who is getting down to the final stages of its review of the Bylaws, and anticipate that a presentation will be made to the membership of proposed revisions to the *Act* and Bylaws for discussion and input from the membership before making a formal request to government to have changes adopted.

As President, I attended many events, some in person, some virtual, on behalf of the Association, in addition to hosting a number of events throughout the year on behalf of Engineers PEI.

In October of 2020, the Ritual of the Calling of the Engineer at the Faculty of Sustainable Design Engineering at the University of Prince Edward Island. Unfortunately, due to COVID restriction the Council was not able to attend, but we congratulate all participants and wish them success in their careers.

This year presented some new challenges in how we could meet, new ways to communicate. As Engineers we were looked to as people of science to help guide our way through. Luckily our engineering, construction and technology industries found ways to continue to thrive in this "New Normal".

My report would not be complete without expressing my sincere gratitude to Kim Levesque, our Administrative Assistant, who, without her help, our organization surely would not run as efficiently as it does.

She is a very committed and dedicated person who is often the person who quietly gets things done behind the scenes. Thank you for your hard work throughout the year.

I would also like to recognize our Executive Director, Jim Landrigan, whose advice and guidance on various issues as they arose throughout the year was extremely valuable. His connections with other regulators as head of the CEO group and Engineers Canada provides huge benefits and returns to the Association in dealings we have with fellow associations and with Engineers Canada. Thank you Jim for your assistance this year.

Respectfully submitted by,

Wendy Weeks, P.Eng.
President

President Wendy Weeks, P.Eng., Dr. Amy Hsiao, FEC, P.Eng. and Executive Director, Jim Landrigan, FEC, P.Eng. with three of the ProGRES alumna who received the ProGRES Scholarship from Engineers PEI.

Engineers PEI awards scholarships annually to children of Members, who are studying engineering. We are pleased to announce this year's recipients:

- Erin Chiasson (daughter of Nancy Chiasson, P.Eng.)
- Robert Greenan (son of John Greenan, FEC, P.Eng.)
- Clara Grant (daughter of Darcy Grant, P.Eng.)
- Nick Landrigan (son of Jim Landrigan, FEC, P.Eng.)
- Benoit Sampson (son of Ken Sampson, FEC, P.Eng.)
- Innis Wheatley (son of W. Ross Wheatley, P.Eng.)

Executive Director's Report

**Jim Landrigan, FEC, P.Eng.
Executive Director**

This has been yet another active year for Engineers PEI in a not so “normal” environment. Our office was closed on March 17, 2020 and remains closed to visitors. Kim and I have been working from home since then.

Our Zoom virtual meetings and interviews have been productive and have allowed us to operate in the new “normal”. The in-person experience cannot be replaced, but we are happy that we can conduct our council, committee meetings and interviews.

There is continuing growth in the number of applications from internationally educated engineering graduates.

JOINT MEETINGS WITH ACECPEI, AAPEI AND THE CONSTRUCTION ASSOCIATION OF PEI

This year we started informal joint meetings with ACECPEI, AAPEI and CAPEI. The purpose the meetings was to share what is going on in PEI and discussing topics of interest to everyone, including COVID precautions on construction sites, diversity, labor shortages and quality of drawings.

COMPETENCY BASED ASSESSMENT

Engineers PEI continues to be an active participant and supporter of this successful Engineers Canada project.

This year, the project team completed the provision of an alternative option for applicants to help satisfy the minimum 12 months of Canadian environment experience requirement. The Working in Canada Seminar: a four unit (56-64 hour in total) online and self-paced course that educates applicants is one of the options being considered. This will become effective by the end of November 2020.

During the year Manitoba joined the CBA system and New Brunswick and Newfoundland and Labrador announced that they will be joining in 2021.

CEO GROUP

During the year, I participated in six meetings of the Chief Executive Officers Group (CEO Group). I continued as the Chairman of the Group until May 2020. The

points of discussion during our most recent CEO Group meeting included: Regulator data retention policies, Proposed OIQ amendment to regulation on their unique transfer requirements, 2021 Revenue Projections, 2022-2024 Strategic Plan consultation sessions.

This year I continued to participate in the CEAB Policies and Procedures Committee meetings as one of two regulator observers. I participated in four meetings this year and provided feedback to the National Admissions Officials and CEO groups. My term ended in June 2020.

I also attended meetings of the Canadian Engineering Qualifications Board, the Canadian Engineering Accreditation Board, the National Admissions Officials Group, 30 by 30 Champions and the National Practice Officials Group. These important meetings allow us to look for and consider opportunities to learn from other associations.

ADMISSIONS PROCESS

The validation of non CEAB academic documents for 68 applicants was completed by World Education Services (WES). This is a 51 % increase over last year. This continues to improve our efficiency and enabled us to complete their academic review as noted in the report for the Engineering Qualifications Committee.

Public perception of and trust in the profession is of paramount importance. As I mentioned last year, I believe that our association and members play an important role in keeping Islanders safe. This is the responsibility and privilege that we share, and I believe that we are well positioned to fulfill our duty.

I wish to thank Kim Levesque, President Wendy Weeks, Council Members, and our volunteers for their support during the year; it was a pleasure to work with you.

Also, I would like to thank my wife Joanne for her continued assistance as she was again a key supporter for myself and Engineers PEI and put up with me working from home since March 17.

Respectfully submitted by,

Jim Landrigan, P.Eng., FEC, M.B.A.
Executive Director

Registrar's Report

Jim Landrigan, FEC, P.Eng.
Registrar

During the 2019-2020 year, Council approved 128 applications:

- 5 Members (transferring in)
- 50 Licensees (seven females)
- 33 Engineers-in-Training (seven females)
- 23 Certificates of Authorization
- 14 Applicants for Professional Registration were approved (two females)
- 3 Members were granted retired status
- 2 Members were granted Honorary Life Membership

During 2019-2020, names were removed from the register for the following reasons:

Licensees—non-renewal.....	55
Members/EITs transferred or resigned.....	13
Members/EITs non-compliant.....	4
COA's not renewed.....	33

The complete listing of Members, Engineers-in-Training, Licensees, and Holders of Certificates of Authorization can be found on the final pages of this report.

Engineers Canada Director's Report

COVID-19

As COVID-19 spread in early 2020, Engineers Canada closed its offices and staff worked from home. Engineers Canada's meetings, including the Annual Spring Meetings in May and the Fall Board Meeting in October were held virtually, as will the December Board Meeting. The Engineers Canada offices reopened in September with public health measures in place for those who wished to return to the office, though staff continue to have the option to work from home.

ENGINEERS CANADA BOARD

At the spring Board meetings, Jean Boudreau was inducted as the 78th president of Engineers Canada and Danny Chui was named as president-elect.

After the Board tasked the Governance Committee to develop a plan for a reduction in the size of the Engineers Canada Board in 2019, that plan was presented for decision at the May 2020 Board meeting. The Board voted to keep the size of the Board as is.

STRATEGIC PLANNING PROCESS

After undertaking an initial environmental scan of the engineering profession and Engineers Canada's work in the latter half of 2019, 2020 saw a foresight exercise take place at the February Board meeting that involved the Board, CEOs, regulator presidents, and chairs of the Accreditation and Qualifications Boards. This informed further work on the strategic plan throughout the year by Engineers Canada staff, and by the Engineers Canada Board at their workshop in August. During the Engineers Canada Fall Meetings, an information session for regulators and other stakeholders on the proposed strategic priorities of the 2022-2024 strategic plan was held. This session prefaced consultations with regulators which started in October and continue into November. A revised draft of the strategic plan will be presented to the Engineer Canada Board at their February meeting, in preparation for consideration by regulators at the May 2021 Annual Meeting of Members.

CANADIAN ENGINEERING ACCREDITATION BOARD

As a result of discussions between the CEAB and Engineering Deans Canada about the impact the pandemic had on the delivery of higher education, the CEAB voted to defer 2020/2021 accreditation visits and decisions, and grant programs that received accreditation prior to June 5, 2020, an additional year of accreditation. New programs that have not previously received an accreditation decision will still receive 'visits,' and to that end, the CEAB's Task Force on Virtual Visits has developed a guide for the virtual evaluation of an engineering program.

Based on a recommendation from the CEAB, the Engineers Canada Board voted in May to reduce the minimum accreditation units of program from 1,950 to 1,850, effective starting with the 2021/2022 accreditation visit cycle. While the total requirement was reduced, requirements for specific components remain unchanged.

Also this year, the CEAB approved the [Accountability in Accreditation](#) strategy, which subsequently launched in August. The strategy is a framework through which the CEAB can assess and inform the effectiveness, trustworthiness, transparency, and efficiency of the accreditation process and includes specific outcomes of the accreditation system, measures of those outcomes, data collection plans, timelines, analysis plans, and reporting plans.

This year also saw the establishment of two new CEAB working groups. The 30 by 30 Working Group meets bi-weekly to explore ways in which the accreditation process can support the 30 by 30 initiative. The Working Group on Student Learning Experiences in the Age of COVID studies how measures taken by programs to respond to the pandemic challenge are supported by the accreditation criteria.

This fall, the CEAB launched their [consultation on the Engineering Design Task Force Report](#). The report recommends adopting an alternate definition of engineering design. The consultation period is open until December 4.

INTERNATIONAL MOBILITY

In February, Engineers Canada hosted a workshop with all 12 regulators to further the development of the sub-strategy for Operational imperative 7: Managing risks and opportunities association with the mobility of work and practitioners internationally. The regulators achieved consensus and provided clear direction on what Engineers Canada can do to support them in meeting their regulatory requirements. The resulting sub-strategy was approved at the October Board meeting.

The International Engineering Alliance (IEA) held its annual meeting in June, where Engineers Canada presented a report addressing the findings of our 2018 Competency Review Report. The Authorized Members asked about our processes for accepting applicants from provinces without a competency-based assessment, expressing concerns about how we ensure they fulfill the IEA competency profile standard. The IEA invited us to submit a new report thoroughly addressing these concerns. The IEA has advised that a special joint meeting of the IPEA and APEC will be scheduled in January 2021 for the Authorized Members to consider this new report and vote on our continued participation in these agreements.

DIVERSITY, EQUITY, AND INCLUSION

Work on achieving 30 by 30 has continued apace this year. The four issue-specific working groups (K-12, post-secondary, early career, and professional development) have met regularly to advance their action plans, with the professional development working group publishing an [employer resource guide](#) that provides tactics that engineering organizations can pursue to increase diversity and women's participation in their organizations. The K-12 working group will also publish in November a K-12 Outreach Guide that offers an assessment tool that outreach programs can use to evaluate and help identify areas where their programs can improve from an equity, diversity, and inclusion perspective.

We also continued our work to promote Indigenous engagement in engineering. The newly created Indigenous Advisory Committee held its first meeting in April, and we continued our participation and work with the Canadian Region of the American Indian Science and Engineering Society (.caISES), and the Canadian Indigenous Advisory Council (CIAC) to AISES. Engineers Canada also published a [guide to acknowledging First Peoples and traditional land](#), and will be publishing soon a report on Indigenous participation in engineering.

GOVERNMENT RELATIONS

Despite the cancellation of Engineers Canada's annual Hill Day due to the COVID-19 pandemic, Engineers Canada has continued to advocate to the federal government,

in particular, on engineers' roles in Canada's post-pandemic recovery. In our August pre-budget submission to the federal government, we recommended the government invest in Canada's high-speed broadband connectivity, infrastructure, and continued support for diversity and inclusion initiatives across Canada, all of which were referenced in the government's Speech from the Throne in September. Engineers Canada also submitted comments this year to Senator Rosa Galvez on her "White Paper on the urgency of building code modernization and implementation," and to Environment and Climate Change Canada's Draft National Climate Change Science and Knowledge Plan. The Engineers Canada Board also approved the national position statement on "Professional practice in cyber security" this year.

AWARDS AND SCHOLARSHIPS

As in past years, awards and scholarships were presented to engineers and engineering students. Because of the virtual nature of the Engineers Canada spring Meetings and the absence of the annual Awards Gala, the awards recipients were recognized and celebrated with a social media campaign. The 2019-2021 strategic plan called for a review of the scholarship program, which was completed this year, with recommendations that were approved by the Engineers Canada Board in October. No changes will be made to the graduate scholarships, while an undergraduate leadership scholarship will be introduced this fall for the upcoming scholarship program cycle. To enhance the monetary value of the undergraduate scholarships, the annual scholarship dinner will be discontinued as recommended.

AFFINITY PROGRAMS

Victor Canada was named as the new provider, effective July 1, 2020, for the Directors and Officers (D&O) and Errors and Omissions (E&O) insurance coverage for Engineers Canada and the participating regulators. This new provider provides increased coverage at a decreased cost.

A review of the Professional Retiree Health and Dental Plan was completed. There is no change to pricing and the Plan has moved to a Retention Accounting model effective September 1, 2020. This move provides Engineers Canada with greater input over the rate setting process and provides a more stable rate for the insureds. To ensure continued value for engineers, a Future Benefits Provision Account has been established.

(Act Enforcement Officer)

Act Enforcement Committee Report

It is important to take the time to indicate the role of the Act Enforcement Committee as outlined below:

This committee will be appointed by Council and shall consist of at least three members of the Association and such additional members as deemed necessary by Council. Council Members are not eligible to be members of this committee.

The committee shall:

in accordance with the provisions of Sections 14, 15 and 16 of the Engineering Profession Act and Section 9.3 of the By-laws consider and investigate complaints regarding the conduct of any Member, Licensee, Engineer-in-Training or holder of a Certificate of Authorization or suspected violations of the Engineering Profession Act or By-laws;

whenever it has any complaint under investigation or consideration the chair of the committee shall submit a written report monthly to the Executive Director; and one month prior to the Annual Meeting provide to Council for incorporation in the annual report a written account of the number and type of investigations undertaken during the year.

The due diligent role of the Act Enforcement Committee is vital to Engineers PEI Self Governance.

The committee has the authorization to hear from complainants and the individual or company being complained about. The person being complained about has the right to receive a copy of the complaint and the name of the person who has lodged the complaint.

The committee can also engage legal counsel for advice and guidance.

This past year the committee has received 4 complaints. Last year we had 17 complaints that were ongoing and required legal advice and guidance. There has been an additional 38 complaints associated with last year's 17 complaints. The Act Enforcement Committee are following the advice of Legal Council on these 55 complaints.

The Status of the 4 complaints are listed below:

- 1 is ongoing
- 3 have been completed.

I want to thank the committee members for their time and effort on these complaints.

Act Review Committee Report

The mandate of the Act Review Committee is to recommend updates within the Engineering Profession Act of Prince Edward Island, as well as within our Association's by-laws to meet the realities of today, while anticipating the opportunities of tomorrow.

The committee is comprised of a talented cross section of our Members. The work of this committee was delayed this year due to the impact of COVID-19. This impacted the ability to meet and the availability of committee members.

The committee has been working closely with our fellow associations across Canada, and with Engineers Canada to adopt the current best practices, and to understand how other associations have addressed current issues. This process has been extremely valuable and will make the updated Act and By-Laws more robust due to their support.

While the Act and By-Law review has proven to be a significant scope of work, the committee is in the process of a final read through before sharing the proposed Act and By-Laws to our Members in February 2021. The Act Review Committee looks forward hearing our Members' feedback via information sessions by April, and then working through any comments shared in preparation of submitting a final submission to our Provincial government by June 2021.

Some of the key changes we are excited to share with our Membership include, but are not limited to:

- alignment with the incoming province wide implementation of the National Building Code
- the introduction of lay councillors to provide greater depth, community outreach, and transparency to our Association
- reinforcement to our commitment pertaining to the protection of the public
- alignment of best practices within the Canadian engineering community
- ability to impose an administrative monetary penalty for those in violation of the Act
- ability to add classifications of membership categories, based on engineering disciplines and necessary qualifications.

On behalf of the Act Review Committee, I look forward to hearing your comments and feedback on the proposed changes when they are made available in February 2021, and would like to thank the committee members for their hard work and dedication throughout the year.

Advocacy Committee Report

Committee Members:

Nancy Chiasson, P.Eng.
Richard MacEwen, FEC, P.Eng.
Jody MacLeod, P.Eng.
David Taylor, FEC, P.Eng.
Sean Wheeler, FEC, P.Eng.
Jim Landrigan, FEC, P.Eng.
Kim Levesque

The mandate of the Advocacy Committee is:

- to inform the public and others of the relevance and value of the engineering profession;
- to inform the public and others of the Association's role in regulating the profession in PEI and in providing services to its members;
- to raise the profile of the Association and the engineering profession;
- to coordinate communication with the public and others on Association programs and activities;
- to respond to media requests; and
- to ensure Association is invited to public meetings where issues impact the Association and Profession.

This year the committee was relatively inactive. The committee continued awareness efforts on the importance of participating in the self-regulating aspect of the profession and the duty to protect the public. We continued to follow national developments in this area. We have suggested to the Act review committee that a lay councilor be added when the Act is updated to bring the association in line with most modern regulators.

Engineers PEI continues to seek to have an ultimate limitation period added to the Engineering Profession Act. It was on the workplan of the Department of Transportation, Infrastructure & Energy to be introduced in the 2020 spring session Legislature. However, due to the COVID-19 pandemic, it has been moved to the fall session.

Annual General Meeting (AGM) Committee Report

Committee Members:

Geoff Connolly, Q.C., P.Eng.
Elliott Coles, P.Eng.
Jim Landrigan, FEC, P.Eng.
Joanne Landrigan
Kim Levesque

The AGM committee planned its first ever virtual Annual General Meeting, due to the COVID-19 pandemic.

The 2020 Annual General Meeting will be held virtually on November 27, 2020, beginning at 9:30am. Members **MUST** preregister by email, by end of day, Tuesday, November 24th.

Due to the pandemic, the Long Service Awards will not be presented in person. They will be mailed to the recipients.

The Engineers PEI Award for the Advancement of Diversity in the Engineering Profession, The Engineers PEI Young

Engineer Achievement Award, the Engineering Award for Excellence, the Ralph L. Woodside Memorial Award for Service to the Profession, and Honorary Life Membership, will be presented in the afternoon. Due to COVID-19 restrictions, only the award recipients and one guest each will be in attendance with Council.

Engineers PEI hopes to have next years' AGM in its original format.

Jody MacLeod, P.Eng.
Sean Wheeler, FEC, P.Eng.
Jim Landrigan, FEC, P.Eng.

Over the past year the Committee continued to pursue projects and assignments from the previous years. These include:

DIGITAL SIGNATURES

Our primary focus this year was to provide an updated "Guideline for Use of Professional Seal" document ready for publication by the end of the year. Our committee met in January to set our goals for the year and assign action items to get started. Unfortunately, due to Covid-19, our work was put on hold. Our next meeting was held in September, using video conference, to review the draft document. The following information highlights important points but the draft document has not been formally approved by council.

Our committee meetings consisted of internal discussions regarding the specific application of the digital protection measures and how it will affect the EngineersPEI membership. While EngineersPEI has signed a formal agreement with Notarius, generic qualification criteria were agreed upon and emphasised in the draft in order to reduce dependency on a third-party company. This criterion, which is generally consistent with other provincial associations' requirements, may be used as a minimum standard to qualify any additional 3rd party organizations who may wish to offer their services in the future. A list of pre-approved Digital Certificate Authorities shall be made available and periodically updated (as required).

The new guidelines also address the continued use of wet stamped original documents in lieu of mandatory digital certification. Our committee recommends that members who wish to utilize the convenience of electronic stamps will voluntarily enrol in the program under an honor system subject to council's review and approval. In an effort to prevent undue financial burdens to the EngineersPEI membership, wet stamping an original hardcopy is expected to continue

as an acceptable standard of practice and no supplemental digital protection measures should be necessary. Members who choose not to enrol with a Digital Certificate Authority (such as Notarius) must maintain hardcopy, wet-stamped original documents as required by the Engineering Act. The application of unsecure digitally applied stamps will no longer be considered an acceptable standard of practice.

With our committee unified in the application from a regulator's perspective, we provided a copy of the draft to ACEC-PEI for their review. Comments from ACEC will be reviewed and incorporated as necessary by the committee in an effort to have a draft document available for Council in December. Implementation is currently expected to be early 2021.

SUBCOMMITTEE SUMMARY

Unfortunately, due to COVID-19 related challenges, our appointees were not very active in their respective subcommittees throughout the year. The uncertainty remains in late fall and adaptations may be necessary into the new year, but we recognize the importance and value in providing active representation throughout the industry.

Respectfully submitted by,

Nick Reddin, P.Eng.
Chair

Mark Victor, FEC, P.Eng.
Chair

Committee Member:

Mike McKenna, FEC, P.Eng.

EIT Committee and Experience Review Board

EIT COMMITTEE

The objective of the EIT Committee is to support our Engineers-in-Training as they work toward applying for Membership as a Professional Engineer.

The Committee conducted an EIT Information Session in January, with plans to hold another one in the fall. However, due to the COVID-19 pandemic, a fall session was not possible. These sessions are held to explain the various requirements of the EIT program and to provide guidance concerning logbook records, the Professional Practice Exam and application to the Engineering Qualifications Committee. The sessions consist of a formal presentation followed by a question and answer period. The information sessions are put on by the Chairperson of the Committee as well as Jim Landrigan, FEC, P.Eng. and Mike McKenna, FEC, P.Eng.

Respectively submitted by,

Mark Victor, FEC, P.Eng.
Chair

EXPERIENCE REVIEW BOARD

The Experience Review Board is now in its seventeenth year of operation.

The Experience Review Board offers a logbook review and constructive criticism mechanism to all EIT's to facilitate the transition from EIT to P.Eng.; it provides review and feedback to ensure that the EIT is demonstrating relevant, progressive experience and that the submissions are formatted in a manner consistent with the EIT Guideline recommendations.

Respectively submitted by,

Mark Victor, FEC, P.Eng.
Chair

Engineering Qualifications Committee Report

Nazmi Lawen, FEC, P.Eng.

Chair

Committee Members:

Greg Clayton, P.Eng.

Amy Hsiao, FEC, P.Eng.

Heather MacLeod, FEC, P.Eng.

Jim Landrigan, FEC, P.Eng.

The mandate of the Engineering Qualifications Committee is to review and verify documentation presented by candidates for the purpose of obtaining a certificate of registration, licence to practice or admittance as an engineer-in-training. The Committee may also prescribe and conduct exams to confirm candidates' abilities in engineering theory and professional practice. Based on thorough review of applications and interviews, the Committee report and make recommendation to Council.

The Committee reviewed applications to ensure applicants wrote and passed the National Professional Practice Exam, log books completed in accordance with the requirements, conducted interviews with the candidate to ensure competency and conformance, requirements for Canadian work experience, and verified references. In addition, the Committee generally discuss and review policies and practices from other jurisdictions to ensure confirmatory in the application review process.

Over the past year the Committee has reviewed a number of applications for registration from engineers-in-training and others. The Committee is pleased to note that the applicants experience and training covered a wide range of engineering disciplines. This year we completed the academic review of 32 applicants who did not have a Canadian Engineering degree. The registration statistics for the past year are provided in the Registrar's Report.

We also keep up to date with assessment techniques in other jurisdictions to confirm that our assessment requirements and standards are consistent with other Provincial Engineering Associations, for the purpose of enhancing the

safety of the public, allowing for mobility of all registrants and facilitating the transition and movement of individuals during the assessment process.

The review process is currently based on the Competence Assessment System. The Competency Framework comprises the required proficiencies to enter the engineering profession and provides clear guidance on the path to registration for applicants, referees, reviewers, and employers alike. The Competency Experience Reporting System was launched in 2018 and a number of EITs use the system.

Many thanks to Amy, Heather, Greg, and Jim for their efforts and contribution to review candidate's files and for their participation in the interviews and Kim for her valuable support of Committee activities.

John Kelly, P.Eng.
Richard MacEwen, FEC, P.Eng.
Craig MacLauchlan, EIT
Neil Morrison, EIT
Paul Tatlock, P.Eng.
David Taylor, FEC, P.Eng.

The mandate of the Environment Committee is to advise on emerging issues related to the environment, promote engineer's unique qualifications and standards of practice to environmental services, and to facilitate the communication of information to the engineering profession and other professions working in the environmental industry on the roles and practice standards for engineering in the environmental field. The Committee also collaborates with other organizations and associations to share strategies, ideas, and information on environmental matters.

Topic discussed during the 2020 meetings were primarily centered on how our profession could better educate the public on climate change, increase awareness to environmental sustainability within our various fields of practice, and how we as engineers could work with and been seen by the public as an advocate for the environment both locally and abroad.

In the Spring of 2020, the Environment Committee organized several teams to help out with the Women's Institute annual roadside cleanup. The roadside event was a great success and collectively our teams managed to clean up roughly 1000 pounds of trash from ditches, fields and trails across the Island.

Engineers PEI also continued its participation in the Engineers Canada national forum Environment and Sustainability Officials Group. This forum provides an opportunity to share information and best practices with other engineering organizations across Canada.

As Chair of the Environment Committee I would like to thank all the Committee members and others who have offered their time, ideas and efforts to promoting environmental sustainability and the role engineering plays in society.

Professional Development & Continuing Education Committee Report

The Professional Development and Continuing Education Committee endeavors to provide learning opportunities to our members by delivering training, technical tours, and presentations on a wide variety of topics that keep our members informed of engineering progress on PEI, as well as providing topics with from national and international perspective. The Committee is also responsible for conducting an audit of the PD&CE program.

As many things in 2020, delivering the PD&CE program proved to be challenging after the onset of COVID-19 pandemic in March. Necessary restrictions placed by the Chief Health Officer prevented group gatherings and limited face to face meetings. We had to find creative and innovative ways to deliver the PD&CE program to our members. As the world embraced virtual meetings and presentations, this was naturally the direction we leaned towards.

This year, the follow sessions were provided:

- **UPEI FSDE Advanced Manufacturing Facility**
Technical Tour - David Taylor – UPEI
- **Intensity-Duration-Frequency (IDF) Curves under Climate Change**
Seminar - climatesense.ca
- **Massive Open Online Course (MOOC) "Sustainability in Practice."**
Webinar - Engineers Canada
- **What Return to Work Really Means**
Webinar - Hub International
- **St Peters Road Upgrades - East Royalty**
Virtual Presentation - Stephen Pigott, P.Eng. PEI Transportation Infrastructure and Energy
- **3D Printing of Metals**
Virtual Presentation - Dr. Teresa Prado

The Professional Development Program is a mandatory component of the annual membership renewal process for all Members, Licensees and Engineers-in-Training. In 2020, three Members and three Licensees were randomly selected for audit. Each of the audited was asked to provide backup documentation to their PD Activity Summary by way of the standardized Activity Detail forms. The forms were reviewed by members of the committee and it was determined that all the audited members/licensees were in compliance with the mandatory PD Program.

It is the CE Committee's mandate to continue providing our members a program with topics relevant to the engineering profession through innovative and creative means as we navigate the new normal of physical distancing. I would like to thank the committee members and all the other members and non-members that have helped us host and deliver the PD&CE sessions over the past year.

Jason Lindsay, FEC, P.Eng.
Tim O'Brien, P.Eng.
Donald O'Keefe, EIT
Ken Sampson, FEC, P.Eng.
Mark Victor, FEC, P.Eng.
Kim Levesque

The Social Committee was presented with a challenging year in 2020 to host events. Many of the regular events throughout the year were cancelled due to public health recommendations regarding COVID-19.

The annual Engineers vs. UPEI Engineering Students hockey game at the MacLauchlan Arena in March as part National Engineering Month was cancelled due to the COVID-19 outbreak and subsequent shutdown of events and facilities across PEI and Canada.

The Annual Lobster Supper held in June was cancelled this year due to Public Health recommendations regarding COVID-19. In lieu of holding this event Engineers PEI donated \$5,000 to the Upper Room Food Bank and \$500 to the Women's Institute who were making masks for COVID-19.

The Fall Golf Tournament was held at Stanhope in September. The weather turned out well for the event and we had our largest turn out in recent history.

Without our dedicated committee members our regular events could not happen. Kim is an integral of this committee and has been a huge factor in coordinating the success of these events.

Respectfully submitted by,

Colin McQuillan, P.Eng.
Chair

President Wendy Weeks, P.Eng. and Colin McQuillan, P.Eng., Chair of the Social Committee present a \$5000 donation to Mike MacDonald from the Upper Room Food Bank.

NATIONAL ENGINEERING MONTH

This year marked the 25th Annual Bridge Building and Artwork Contest. On March 13th, over 100 students from grades 4 to 12 gathered at the Charlottetown Mall for judging and load testing of their bridges, made from popsicle sticks and glue. Many wonderful drawings from kindergarten to grade 6 students were also on display. The theme for this year's Artwork Contest was "There's a Place for You in Engineering".

Special thanks to Blair Arsenault, Mike Gallant, Tim LeLachuer, and Mike McKenna who set up the equipment and helped with the testing.

FUTURE CITY

The Future City Competition engages over 40,000 middle school students internationally each year. Students repeatedly report the program increases their motivation and excitement about STEM (Science, Technology, Engineering, and Math).

This past year, we had 15 teams enter the PEI competition, with the aim of addressing the topic of "Clean Water: Tap into Tomorrow".

Teams were tasked with choosing a threat to their city's water supply and designing a resilient system to maintain a reliable supply of clean drinking water.

Seven of those teams competed at the regional competition on January 18, 2020 at the University of Prince Edward Island, Faculty of Sustainable Design Engineering building. At the regional competition, the students are judged by local engineers on their project presentations, project models, and other special award categories including most sustainable design, best moving part, and people's choice. After the morning presentations, the top three teams presented

in the finals in front of all the teams and the general public, and the winner was selected from there.

ENGINEERS PEI ROBOTICS CLUB

Due to the COVID-19 pandemic, the Engineers PEI Robotics Club ran until March and will not resume meeting until further notice.

Women in Engineering Committee Report

Committee Members:

Keilah Bias, EIT
Amber Jadis, P.Eng.
Glenda MacKinnon-Peters, FEC, P.Eng.
Katie McCarthy, P.Eng.
Jennifer Nelson, EIT
Alisa Saciragic-Mrehic, FEC, P.Eng.
Katlyn Smith, EIT
Maria Steele, P.Eng.
Wendy Weeks, P.Eng.
Jim Landrigan, FEC, P.Eng.

The Women in Engineering Committee's mandate is:

- to monitor and work to increase the participation of women in engineering with respect to recruitment, retention, and equity;
- to provide information, advice, & recommendations on women in engineering issues for consideration by the Engineers PEI Council;
- to lead the Engineers PEI work to support the national goal of 30 by 30, and actions in support of the Engineers Canada action plan; and,
- to participate in outreach, development activities, research initiatives and collaborate with like-minded groups both within and external to Engineers PEI.

WIE held one in-person event (before the Island's COVID-19 shutdown in mid-March) and a few virtual events for networking, mentorship, and professional development this year. These events were well attended and enjoyed by the participants:

- The Committee hosted a second "Lean In: 50 Ways to Fight Unconscious Bias" Wine and Cheese networking event on Thursday, March 12, from 5:00 to 7:00 PM.
- WIE Chair and UPEI FSDE faculty member, Dr. Amy Hsiao, organized and held Go Eng Girl Day on November 7, 2020 virtually using a teleconferencing platform. This was the fourth, consecutive time UPEI-FSDE has participated in Go Eng Girl Day through the ONWiE network. Go Eng Girl Day was created by the Ontario Network of Women in Engineering (ONWiE) and has occurred in the Fall for the past 15 years, with over 25 engineering universities across Canada participating. This year's Go Eng Girl Day "home edition" was also a half-day event for girls in grades 7-10 that included a hands-on activity focused on creativity and investigation and women engineering students as guest speakers for a virtual "meet and greet".
- The Committee hosted a third "Lean In: 50 Ways to Fight Unconscious Bias" Virtual Dessert social and

networking event on Thursday, November 19, from 5:00 to 7:00 PM.

The Committee also sponsored registration for FSDE students, EITs, and P.Engs. to the 18th Biennial Conference of the Canadian Coalition of Women in Engineering, Science, Trades and Technology (CCWESTT) 2020 Virtual Speaker Series in November 14-17, 2020. Keynote speakers included Dr. Gina Cody, Sherry Holmes, Julie Angus, Dr. Jaime Cidro, and Angeline Nelson. The Canadian Coalition of Women in Engineering, Science, Trades and Technology (CCWESTT) is Canada's premier national, nonprofit organization of groups, institutions and industries with a mission to expand the attraction, retention, and promotion of women. This year's conference theme is **Future Forward: Engage. Advance. Inspire.**

The Committee will propose a 2021 budget that continues to focus on the Engineers Canada 30 By 30 Initiative, which is a stated goal to achieve a national licensure rate of 30 percent women by the year 2030. Currently, there are 75 women (EITs and Members) registered in PEI, or 15% of our members. Glenda MacKinnon-Peters is Engineers PEI's champion for the 30 by 30 Initiative and Amy Hsiao is the university (UPEI) champion for the 30 by 30 Initiative.

WIE welcomes the participation of all engineers in the membership and will continue to have networking and special topic events through virtual gatherings. WIE will continue to sponsor and support the effective recruitment of women to Engineering.
