

ARTWORK CONTEST

Engineers PEI 2024 Artwork Contest Theme: There's a Place for You in Engineering!

This theme celebrates the diversity of thought, opportunities, and people that make up the engineering profession, and demonstrates that there's a place for everyone in engineering. During the month of March, the engineering profession strives to reach out to youth, to give them the opportunity to learn about the many disciplines of engineering, and allow them to see where their skills and interests can fit in. With so many different types of engineering, it's important for youth to understand the various things they can do as an engineer so that they can pick the discipline that truly motivates and excites them the most.

Now DRAW!
